## EDUCATION

### Btech

**Feb 2021 - Aug 2024**

*Shram Sadhana Bombay Trust College of Engineering and Technology Bambhori, Jalgaon*

Main course: Computer Engineering

## WORK EXPERIENCE

### Internship

**March 2022 - June 2022**

*techmihirnaik Group's*

*Jalgaon*

- Worked as a Frontend Developer Intern on the official roommate website and coordinated with the group to complete each task.

## PROJECT

### Age and Gender Detector model

**Aug 2022**

- Trained Age and Gender Detector model which could predict age and gender taking input image using ML.

### Counselling System for Human Health using ML

**March 2023**

- A project is trained using dataset of body vitals. It is trained using rfc algorithm which takes the average to improve the predictive accuracy of that dataset. Tried with various svc algorithm, Naive Bayes Classifier and K-nearest neighbour algorithm but in case of rfc the accuracy was around 80%. The body vitals taken as input calculates the health status of a patient, based on the health status the detailed report is presented to the user.

## SKILLS

### Programming

JavaScript, ReactJs, Python, Django, C, C++, HTML, CSS

### Other

Github, Excel
